

**Office of the Principal Govt.Higher Secondary School,Nyoma(Changthang).**

No: GHSSN-2017/10-12

Dated: 27<sup>th</sup> of April, 2017.

**Mr. John Hunt.  
CEO, Lotus Flower Trust,  
UK.**

Dear Sir,

First of all may I introduce myself to you. I am Chosdan Tundup Principal Govt. Higher Secondary School, Nyoma.Through our Executive Councillor Ladakh Autonomous Hill Development Council ,Leh(Ladakh)Sh.Dorjey Motup,I came to know that your trust is willing to help this institution with solar heated hostel for the girls students. We are highly grateful to your trust for this kind help. Changthang (Nyoma )is situated between Latitude N 33<sup>o</sup>12.209' and Longitude E78<sup>o</sup>37.625' at an elevation of 13661 ft. above sea level and is very notorious for its chilly and windy weather .Winds blows with high speed for most part of the year and it is unbearably cold during the Spring, Autumn and winter season. So it is very essential to build scientifically north insulated solar heated buildings for Changthang region. The Govt. is not building solar heated building as its Engineers are not trained in solar designs .Besides there are bottleneck of approval of locally available materials from J&K Govt. So all Govt. build buildings are suited for hot areas like Delhi and Jammu. I will highly appreciate your intention of building solar heated north insulated building ~~so that~~ so that it becomes a prototype for other construction agencies including Govt .to emulate it.

The campus of the institution is very spacious designed for college and there is no problem of space.

Looking forward to hear from you,

Yours truly,

(Chosdan Tundup)  
Principal

Govt. Higher Secondary School,  
Nyoma.
